

	Product	Description
	<b>Custom Backplane/ Midplane Assemblies</b>	<ul style="list-style-type: none"> <li>• Backplanes with 40+ layers with design support for 25Gbs system requirements</li> <li>• Support all Molex and industry-standard backplane connector systems (Impact™, I-Trac™, GbX®, VHDM®, VHDM-HSD™, Milli-Z™, µTCA, Serial ATA, SCSI, etc.)</li> <li>• Mechanical and electrical design, development, simulation, test and in-house functional test design and development capabilities</li> <li>• Global manufacturing footprint</li> </ul>
	<b>MicroTCA Assemblies</b>	<ul style="list-style-type: none"> <li>• Molex 10 Gbps backplane design allows direct comparison of the Molex solution against any other backplane solution in a similar card edge by functionally evaluating the systems and comparing results, especially when higher speeds are required</li> <li>• Backplane is supported by electrical models and empirical testing supporting 10 Gbs performance in an off the shelf solution</li> <li>• Utilized Molex press fit connector technology to provide a high level of reliability from an fully integrated interconnect solution from Molex</li> </ul>
	<b>LED Assemblies</b>	<ul style="list-style-type: none"> <li>• Experts in LED interconnect PCB assembly solutions: rigid board and flex configurations</li> <li>• Molex facilities are TS 16949 certified for automotive LED board manufacturing cards</li> <li>• Global manufacturing, material sourcing, tooling and testing capabilities</li> <li>• Clean sheet mechanical and electrical design, development and test support, including circuit design and customer functional test design and development</li> <li>• Mechanical packaging expertise to recommend interconnect solutions or to develop customer interconnects to fit your needs</li> </ul>

	Product	Description
	<b>Media Connectivity Modules (MCM)</b>	<ul style="list-style-type: none"> <li>• Complete mechanical, electrical and design and process verification support</li> <li>• Expertise in signal integrity engineering</li> <li>• Cost effective solution by integrating Molex interconnect technology and manufacturing</li> <li>• Currently serving customers worldwide, reliably and competitively</li> <li>• Global footprint for manufacturing, engineering and customer support</li> <li>• Designs supporting USB 3.0, HDMI, analog video and audio, Blue Tooth, 1394, Display Port, Ethernet</li> </ul>
	<b>High Performance I/O Ports</b>	<ul style="list-style-type: none"> <li>• Digital, analog and power interconnect solutions</li> <li>• SFP/SFP+ and QSFP products for ATCA and <math>\mu</math>TCA platforms</li> <li>• Designs that support unitized multiport connections to simplify assembly, save space and reduce costs</li> <li>• Signal integrity support to assure performance in high bandwidth applications</li> <li>• Mechanical design support for custom bezels and sealed I/O port requirements</li> </ul>
	<b>Interconnect Boards</b>	<ul style="list-style-type: none"> <li>• Value add service to our customers</li> <li>• Utilize Molex connector technology to provide total Molex interconnect solution</li> <li>• SMT, BGA, through hole, press fit and selective soldering processing capabilities</li> <li>• Global manufacturing footprint</li> <li>• Global supply chain support</li> </ul>
